

Ultramarine

The newest ship in our fleet, *Ultramarine* is designed to go beyond the familiar in polar exploration, to discover new places, and to immerse you in the best the region has to offer. *Ultramarine* features the category's most spacious suites, breathtaking public spaces, and more outdoor wildlife viewing spaces than other expedition ships its size, complemented by an innovative mix of sustainability features that exceed all industry standards.

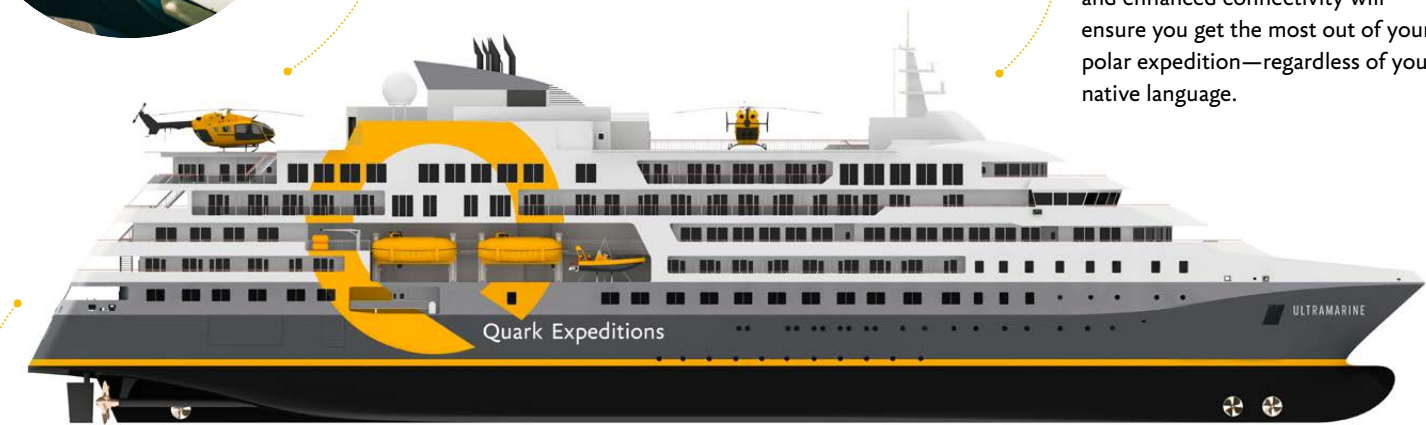

Two twin-engine helicopters.

Ultramarine is the only polar vessel with two helicopters and two helicopter landing pads. This allows us to bring you further into breathtaking polar landscapes, only accessible by air, faster than anyone else.

Smart technology.

Large-screen display in the lecture theater, real-time translation services, and enhanced connectivity will ensure you get the most out of your polar expedition—regardless of your native language.

Water-level Zodiac hangar.

A unique hangar designed with 20 quick-deploy Zodiacs and two Ready Rooms, will get you off the ship and experiencing more of the spontaneous, unforgettable adventures nature bestows.

Environmental footprint.

Enjoy all this and more traveling on a vessel with a pioneering mix of advanced sustainability features that will reduce its environmental impact to an extent unseen for a polar vessel of its size.
